

# HORROR FEST INTERNATIONAL

## TECH SPECS:

The historic Electric Theater located at *68 E. Tabernacle St. in St. George, UT, 84770;*

The Electric Theater is a historic venue. It has been in the Southern Utah area for over a century. The venue uses an Eiki 6000 Lumen HD Cinema Projector. The projector uses 10-bit color depth, displayed on a 25-foot screen. Due to the venue being a multi-use space, the theater uses stereo sound on a 32-channel board to host a wide variety of events. There are 300 seats, including a balcony.

As far as what we need from our filmmakers;

- **CODEC FILE:** A high-quality HD version of your film in mp4 or .mov (Please try and keep files under 30GB)
- **AUDIO:** Stereo sound is ideal.
- **SUBTITLES:** If your film is subtitled, please make sure they are burned into the file.
